ABOUT PROCO

What do we do ?

PROCO conducts **multi-services in engineering** development and investment projects with the process industries.

For who ?

The major industrial groups in the sectors,

Life Sciences, Agrifood, Energy in the Democratic Republic of Congo and abroad.

How?

By designing and building industrial facilities that our customers will need tomorrow: New works and challenges, extensions, modifications and refurbishments, compliance to standards...

ALLIANCE STRATEGY

- PROCO is building a **network of strategic alliances** with stakeholders in order to expand and **strengthen its offer in the DRC and abroad.**

- Our network of partners abroad allows us **to respect local practices, cultures and legal constraints.**
 - The PROCO teams are proud to support Congolese industrial groups that develop projects abroad and guarantee them to pay particular attention to confidentiality issues.
- PROCO teams are also happy to support **foreign companies wishing to set up in the DRC and design their production** or research units.

OUR AMBITIONS

**A HIGH ADDED VALUE
SERVICE OFFER AND A MIX OF
UNIQUE SERVICES ON THE
MARKET**

**REFERENCE EMPLOYER FOR
ENGINEERS AND
TECHNICIANS**

**INNOVATION AND
INTERNATIONALIZATION AS
ENGINES OF GROWTH**

**THE STRENGTH OF A GROUP
AT THE SERVICE OF LOCAL
SERVICES**

From the idea.... At the realization

Project management

etc.).

- Define, measure and monitor **costs** and **planning**.
- Set up a project monitoring plan and measure **progress** in real time.
- **Organize** and **manage** information dissemination (project meetings, etc.).
- Take corrective actions in the coordination of resources in order to meet the goals and deadlines.
- Efficiently manage database, track updates and share masters with our customers.

PROCO

Personalized support for your projects

PERFORMING TOOLS

- **Calculations** : Suite AspenOne, Simulis (ProSim), Robot Pro, FlowMaster, PipeFlo, PipeStress, Caesar II, Thermoflex.
- **CAO 3D General Setup**: PDMS, Microstation / PlantSpace, Isocad, Plant 3D.
- **CAO 3D Mecanic** : Solid Edge, Inventor, Catia, ProEngineer.
- **Model review 3D** : Walkinside, Review-Reality, Bentley Navigator.
- **DAO 2D and CAO 3D** : Autocad, Microstation, Smarts sketch.
- **PID** : Pidexcad, Smartplant PID, Autocad PID.
- **CAO Instrumentation – Electricity**: Aveva Instrumentation, See Electrical Expert, ADK Electrical, Caneco HT et BT, TR Ciel.
- **Programming – Automation**: Rockwell, Schneider, WinDev, GE Intelligent
- **Scanner 3D** : digital readings of data on site usable in CAD and 3D CAD.

OUR SERVICES

✦ CIVIL ENGINEERING

- Building renovation and construction service;
- Design office for the establishment of specifications, plans, projects;
- architectural design services;
- Roads, drainage and earthworks;
- Metallic construction.

Roof Building at kakula workshop in KAMOA

Trench Building work at the concentrator in KAMOA

Building rehabilitation work in KCC
